As a prospective Mobile Application Developer actively seeking a co-op or Intern position, I bring a solid foundation in computer science and a genuine passion for coding excellence. I am excited about the opportunity to apply my skills in languages such as Swift, Java, and Kotlin. With a commitment to staying current with industry trends and technologies, I am confident in my ability to make meaningful contributions to your development team. I am eager to embark on a challenging experience where I can contribute my technical skills, collaborate on innovative projects, and play a role in the success of your organization.

Experience

iOS and Flutter Developer VirtualQube Technologies

November 2020 - July 2022

- Solely responsible for iOS and Flutter development, demonstrating adaptability and versatility to address diverse mobile development needs efficiently.
- Seamlessly incorporated Flutter development into the skill set in response to market demands, enhancing the company's product offerings and staying ahead of industry trends.
- Proactively pursued self-directed learning through platforms like Udemy, acquiring proficiency in Flutter while concurrently managing iOS projects.
- Contributed to the company's competitive edge by staying abreast of evolving technologies, driving innovation, and delivering high-quality solutions aligned with market trends.
- Positioned the company for sustained growth and success through continuous improvement and dedication to mastering emerging technologies in mobile development.

Projects

Let's Relate Better (Flutter)

10K+ Downloads | 4.3 Rating

- Enhanced User Experience: Spearheaded a comprehensive UI redesign that elevating aesthetics and usability to improve user engagement and satisfaction.
- Expanded Functionality: Successfully integrated new dating features into the app, broadening its appeal and attracting a wider user base, thereby increasing market competitiveness and potential revenue streams.
- Collaborative Success: Leveraged mentorship and collaboration to seamlessly implement logical elements within the project, resulting in enhanced app functionality and user experience, ultimately driving sustained user retention and market reach.

Chitchat - Personal Project (Flutter)

- Developed a Flutter-based chatting application akin to WhatsApp, featuring real-time messaging and story sharing functionalities.
- Implemented customizable features such as chat background color selection, and story management including adding, deleting, and viewing stories.
- Planned future updates include adding privacy features like hiding/unhiding chats and integrating social media accounts like Facebook, Instagram, and LinkedIn for seamless connectivity.
- Leveraged Firebase for real-time database and authentication, ensuring a robust and secure user experience.

Quick Note - College Project (Kotlin Multi-platform)

- Developed a notes application called Quick Note using Kotlin Multi-platform for the 1st-semester final project at Cambrian College, showcasing proficiency in Kotlin and cross-platform development.
- Implemented core features including adding, deleting, and viewing notes, along with a unique UI design featuring random color selection for the home page.
- Successfully completed the project, highlighting skills in project management, problem-solving, and application of software engineering principles.

Education

Mobile Application Development Cambrian College - Toronto

Expected in April 2024

- Studied multi-platform app development using Kotlin, UI/UX design with Figma, and cloud-based application storage with Firebase, complemented by a strong understanding of C# and .NET programming.

Graduate Certificate in Information Technology Algoma University - Brampton (GPA: 3.6)

June 2023

- This program equips me with a deep understanding of computer science fundamentals, data structures, and database programming, coupled with practical expertise in mobile technology, software engineering, and systems analysis, empowering me to design and implement cutting-edge IT solutions in line with contemporary business strategies.

Bachelor's in Information Technology Gujarat Technological University - (GPA: 2.88)

June 2019

- Provides proficiency in core IT concepts and practical skills, enables me to effectively solve real-world problems, collaborate in multidisciplinary teams, and stay up-to-date of emerging technologies and industry trends.

Awards and Certification

- President's Honour Award in Cambrian College for 4.0 GPA
- Best Performer of the year in Cambrian College

Skills

- **Technical:** Flutter, Dart, Swift, iOS, Firebase, Java, Kotlin, C, C++, Widget, storyboard, Third party libraries implementation, Version Control, GitHub, SQLite, RESTful APIs, Core data, App Life Cycle, iOS SDK, Flutter SDK, State management, Platform-specific Code, Deployment
- **IDE:** Extensive knowledge of Android Studio, XCode
- **UI/UX Design:** Figma, Adobe XD
